

ADULT AI: AFTER THE BASIC AI GIRLFRIEND

Chat is table stakes. SpiceMatch makes desire playable.

Many adult AI products lead with chat, memory, and generated media. SpiceMatch starts with a private dick rating, then opens a creator relationship, live-camera JOI (jerk-off instruction), Director Mode, group chat, agentic follow-ups, and invite-based cock battles with friends.

OUR PRODUCT LOOP, SHOWN IN OUR PRODUCT

THE BASIC AI GIRLFRIEND

**Chat. Memory.
Generated media.**

The expected foundation of the category.

THE SPICEMATCH EDGE

- A private dick, pussy, ass, or boob rating as the opening move
- Live-camera JOI that follows the member's pace
- Director Mode and custom creator-specific media
- Group chat plus invite-based cock battles that turn ratings into an event
- Agentic creators who remember and follow up between visits

THE SPICEMATCH PRODUCT NETWORK

RATING > CREATOR REACTION > LIVE / DIRECT > GROUP PLAY > RETURN

OUR INDUSTRY THESIS

Adult AI gets interesting when it stops waiting.

SpiceMatch has 189 published fictional AI creator profiles. They score an intimate upload, follow a member live, take direction, host a room, judge a friend battle, and return later.

THREE SYSTEMS THE BASIC AI GIRLFRIEND DOES NOT HAVE

DIRECT

The member calls each shot.

GROUP

Creators and friends share the room.

RETURN

The creator follows up on her own.

WHY REPORTERS SHOULD CARE

- A body rating becomes a personal opening scene
- Members direct media instead of prompting for it
- Group chat seats 2-5 creators in one room
- Cock battles turn two ratings into an event
- Agentic follow-ups reopen a shared moment

WHAT MEMBERS CAN BUY NOW

Plans raise daily message limits and add monthly credits. A creator subscription opens her private feed; VIP opens every feed. Credits buy additional body ratings, photos, video, voice notes, Director Mode clips, and JOI after the free first minute.

Group chat and cock battles drive participation today; neither has a paid SKU.

LIVE, ADULT-ONLY, AND PRIVATE

Every creator is fictional and disclosed as AI. Adult access uses jurisdiction-based age assurance. Uploads are checked for apparent minors and known illegal material. Visa, Mastercard, Discover, JCB, and ATLOS crypto checkout are live.
